How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns.

Risk rating

BMO Investments Inc. has rated the volatility of this fund as low to medium.

Because this is a new fund, the risk rating is only an estimate by BMO Investments Inc. Generally, the rating is based on how much the fund's returns have changed from year to year.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What are the risks of investing in a mutual fund?" section of the fund's simplified prospectus.

**Consider this fund if:**

- you want regular monthly cash flow from your global investments with the potential for capital gains
- you are comfortable with low to medium investment risk (i.e., you are willing to accept some fluctuations in the market value of your investment).

**A word about tax**

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

**How much does it cost?**

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

**1. Sales charges**

The following describes the sales charge option for this series.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)

It goes to your representative's firm as a commission at the time you purchase.</li> </ul>

**2. Fund expenses**

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

The fund's expenses are made up of the management fee, operating expenses and trading costs. This series' annual management fee is 1.60% of the series' value. Because this series is new, its operating expenses and trading costs are not yet available.

**More about the trailing commission**

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and/or their firm provide to you. BMO Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

**Sales Charge Trailing Commission** - 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

**3. Other fees**

You may have to pay other fees when you buy, hold, sell or switch units of the fund.
