  - Corporate Bonds & Debentures 97.8%
  - Cash/Receivables /Payables 1.7%
  - Collateral Mortgage Obligations 0.5%

**How risky is it?**
The value of the fund can go down as well as up. You could lose money. One way to gauge risk is to look at how much a fund’s returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.
Risk rating
BMO Investments Inc. has rated the volatility of this fund as medium.
This rating is based on how much the fund’s returns have changed from year to year. It doesn’t tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund’s returns, see the “What are the risks of investing in a mutual fund” section of the fund’s simplified prospectus.

No guarantees
Like most mutual funds, this fund doesn’t have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?
This section tells you how Series O units of the fund have performed over the past 7 calendar years. Returns are after expenses have been deducted. These expenses reduce the series’ returns.

Year-by-year returns
This chart shows how Series O of the fund has performed in each of the past 7 years. The series dropped in value in 2 of the 7 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns
This table shows the best and worst returns for Series O units of the fund in a 3-month period over the past 7 calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

Average return
The annual compound return of Series O of the fund since inception was 2.6% as of March 31, 2020. If you had invested $1,000 in this series since inception, your investment would now be worth $1,218.

Who is this fund for?
Consider this fund if:
• you are looking for income and the potential for capital gains primarily through investments in non-investment grade bonds of U.S. issuers
• you are comfortable with medium investment risk (i.e., you are willing to accept fluctuations in the market value of your investment).

A word about tax
In general, you’ll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?
The following tables show the fees and expenses you could pay to buy, own and sell Series O units of the fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges
Instead of paying a sales charge on each transaction, you pay an annual fee to your representative’s firm based on the value of your assets. You pay no sales or redemption charges if you buy, redeem or switch Series O units.
2. Fund expenses

You don’t pay these expenses directly. They affect you because they reduce the returns of this series of the fund.

As of September 30, 2019, the Series O expenses of the fund were 0.47% of its value. This equals $5 for every $1,000 invested.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts documents, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, annual information form, Fund Fact documents or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact BMO Investments Inc. or your representative for a copy of the fund’s simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund’s legal documents.
