- you want specific exposure to the growth potential of precious metals

Before you invest in any fund, you should consider how it would work with your other investments and your tolerance for risk.

A word about tax

Depending on the tax rules and tax rates that apply to you and the fund, you may have to pay tax on your portion of the fund's earnings and gains, whether paid out to you in cash or reinvested in the fund. Also, you may have to pay tax on any gain you realize when you redeem or sell your investment in the fund. However, if you hold your investment in a registered account such as a Registered Retirement Savings Plan or a Tax-Free Savings Account, generally you will not have to pay tax on earnings or gains that are held in the registered account.

How much does it cost?

The following section describes the fees and expenses you could pay to buy, own and sell Advisor series units of the fund.

The fund has other series of units. The fees and expenses are different for each series. You should ask about other series of units that may be suitable for you.

1. Sales charges

You have to choose a sales charge option when you buy this series of the fund. You should ask about the pros and cons of each option.

When you sell the fund, any redemption fee you pay goes to BMO Investments Inc. You can switch to units or shares of other BMO Guardian Funds under the DSC option without paying a redemption fee. If you redeem units that were switched from another fund, the redemption fee rate is based on the date that the original securities were purchased. In each calendar year, up to 10% of the units you hold under this option can either (i) be redeemed for cash without a redemption fee, or (ii) if not already redeemed, redesignated as Sales Charge option units. This amount is the "Free Redemption Amount" and is not cumulative, meaning that you cannot carry any unused amount forward to the next calendar year. If you choose to redesignate units bought under the DSC option as part of the Free Redemption Amount, your units will be subject to the fund expenses and other fees applicable to units purchased under the Sales Charge option after the redesignation.

The trailing commission is paid out of the management fee. The rate depends on the sales charge option you choose:

Sales Charge Trailing Commission - up to 1.00% of the value of your investment each year. This equals up to \$10 each year for every \$1,000 invested.

DSC Trailing Commission - up to 0.50% of the value of your investment each year. This equals up to \$5 each year for every \$1,000 invested. If you purchased your securities under the DSC sales charge option and the redemption fee schedule applicable to those securities is complete, the trailing commission will increase to the rate applicable to securities purchased under the Sales Charge option.

Low Load Trailing Commission - up to 1.00% of the value of your investment each year. This equals up to \$10 each year for every \$1,000 invested.
