**2. Fund expenses**

The fund's expenses are made up of the management fee, operating expenses and trading costs. This series' annual management fee is 1.75% and its annual administration fee is 0.30% of the series' value. Because this series is new, its operating expenses and trading costs are not yet available.

**Trailing commission**

BMO Investments Inc. pays your dealer (including your discount broker) a trailing commission for as long as you own the fund. It is for the services and advice about the fund your dealer provides to you. Your dealer may pay part of the trailing commission to your advisor.

The trailing commission is paid out of the management fee. The rate depends on the sales charge option you choose:

**Sales Charge Trailing Commission** - up to 0.75% of the value of your investment each year. This equals up to \$8 each year for every \$1,000 invested.

**DSC Trailing Commission** - up to 0.25% of the value of your investment each year. This equals up to \$3 each year for every \$1,000 invested. If you purchased your securities under the DSC sales charge option and the redemption fee schedule applicable to those securities is complete, the trailing commission will increase to the rate applicable to securities purchased under the Sales Charge option.

**Low Load Trailing Commission** - up to 0.50% of the value of your investment each year. This equals up to \$5 each year for every \$1,000 invested.
